40 Book Challenge

Throughout your 4th grade year, your goal is to read at least 40 different books of a variety of lengths and from a variety of different genres. As you read 40 books this year, you will develop your identity as a reader, learn which genres of books are your favorite, grow your vocabulary, recommend books you like to your classmates, and gain inspiration for your own stories.

Record books you read (at home, at school, wherever) in the table below. You can record books that you listen to, read out loud to someone else, or books that you read to yourself. Remember that the 40 Book Challenge is a personal challenge and opportunity to grow and stretch yourself as a reader!
